

DARWIN M. PALAGUYAN

Web Developer

+63 930-423-5402 darwinmauriciopalaguyan@gmail.com

PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer and recent Associate in Computer Technology graduate with hands-on experience developing responsive websites, database-driven applications, and web-integrated IoT projects. Proficient in HTML, CSS, and responsive web design, with practical experience using JavaScript, PHP, and MySQL to build real-world projects. Passionate about continuous learning, upskilling, and staying current with emerging technologies. Known for strong problem-solving abilities, adaptability, and attention to detail, with a commitment to delivering quality web solutions and continuously improving technical expertise.

EDUCATION

Associate in Computer Technology - Asia Pacific College of Advanced Studies 2025 - 2026

SKILLS

Programming and Web Development

- HTML5
- CSS3
- JavaScript
- PHP
- MySQL
- Responsive Web Design
- C#
- ASP.NET Core

Version Control and Tools

- Git
- GitHub
- XAMPP
- Visual Studio Code
- Arduino IDE
- Figma
- Canva

Professional Skills

- Problem Solving
- Critical Thinking
- Customer Service
- Communication Skills
- Time Management
- Team Collaboration
- Data Privacy Awareness
- Attention to Detail

EXPERIENCE

On-the-Job Trainee (OJT)

Social Security System (SSS) – Administration Section, E-Center and Web Services

- Assisted 30+ clients daily with online SSS services, troubleshooting account issues, and guiding users through digital transactions, improving service efficiency and ensuring accurate completion of government processes.
- Resolved website and system-related errors by diagnosing user concerns and providing technical support, strengthening problem-solving skills while enhancing user experience and successful online service access.
- Maintained strict data privacy and security standards while handling sensitive personal information, while supporting daily operations in a high-volume government service environment and improving communication and adaptability skills.

PROJECTS

POS and Online Ordering System

Technologies: PHP, MySQL, HTML, CSS, JavaScript, Payment API Integration

Smart Irrigation Monitoring and Watering System

Technologies: Arduino, ESP32, Sensors, IoT, Web Interface

IoT Home Automation Control System

Technologies: Arduino, ESP32, IoT, HTML, CSS, JavaScript

SEMINARS AND PROFESSIONAL DEVELOPMENT

Technological Talk of Synergy: Electrical and Electronics Engineering Summit - May 16, 2023
Anti-Cybercrime Upskilling Initiative (Project Acuity) - May 8, 2024
Global Blockchain Congress 2024 - September 24, 2024
Tech Talk: Innovate, Design, Present: Creating Solutions that Matter - February 18, 2025
DEVCON iThink ICP Bootcamp - April 11, 2025
Founders Live - April 11, 2025
Internet of Things (IoT) in Smart Cities - October 13, 2025
Software Development and Design Thinking - October 13, 2025
Awareness-Raising Campaign on AI through Hour of Code - November 21, 2025
Global Blockchain Congress 2025 - October 27–28, 2025
